

## BAB V

### PENUTUP

#### A. Kesimpulan

Berdasarkan hasil penelitian, analisis data dan pengujian hipotesis yang telah dilakukan, maka dapat disimpulkan bahwa:

1. Berdasarkan uji  $t$ , diketahui bahwa nilai  $t_{hitung}$  sebesar 4,053. Sementara besarnya nilai  $t_{tabel}$  untuk taraf signifikan pada tingkat kepercayaan sebesar 95% dan  $df$  (*degree of freedom*) sebesar 98 ( $n - 2$  atau  $100 - 2$ ) adalah 1,987. Dapat dikatakan bahwa  $t_{hitung} > t_{tabel}$  ( $4,053 > 1,987$ ) maka hipotesis ( $H_a$ ) diterima yang artinya ada pengaruh antara variabel ulasan wisatawan ( $X$ ) terhadap keputusan berkunjung ( $Y$ ). Hasil penelitian ini menunjukkan bahwa keputusan berkunjung dipengaruhi secara nyata di mana ulasan wisatawan terdapat pengaruh antara variabel ulasan wisatawan ( $X$ ) terhadap variabel keputusan berkunjung ( $Y$ ). Maka dapat disimpulkan bahwa wisatawan memutuskan untuk berkunjung ke Museum Ullen Sentalu setelah melihat atau membaca ulasan yang terdapat di akun media sosial pribadi milik Museum Ullen Sentalu dan banyaknya ulasan yang bersifat positif atau ulasan yang menarik sehingga wisatawan tertarik untuk berkunjung ke Museum Ullen Sentalu.
2. Dari hasil  $R$  *square* sebesar 0,144 atau 14,4% yang berarti bahwa variabel bebas ulasan wisatawan ( $X$ ) berpengaruh sebesar 14% terhadap variabel terkait keputusan berkunjung ( $Y$ ). Sehingga sisanya

sebanyak 86% keputusan berkunjung wisatawan dipengaruhi oleh faktor lain di luar variabel yang diteliti, seperti melihat akun pribadi media sosial milik Museum Ullen Sentalu yang terdapat foto atau video yang diunggah tanpa melihat ulasan atau informasi tentang museum ullen sentalu dan hanya melihat iklan yang di unggah di media sosial tanpa melihat komentar dari wisata lainnya.

3. Berdasarkan observasi penelitian ini wisatawan mendapatkan informasi dari media sosial, sedangkan media sosial milik Museum Ullen Sentalu hanya sekedar informasi-informasi yang umum terkait sebuah museum. Mereka seharusnya bisa menceritakan atau menginformasikan biaya masuk, fasilitas pelayanan yang ditawarkan , sehingga wisatawan yang berkunjung bisa mendapatkan informasi yang lebih akurat terkait apa saja yang mereka akan dapatkan saat berkunjung ke Museum Ullen Sentalu.

## **B. Rekomendasi/Saran**

Berdasarkan kesimpulan dan hasil pendalaman penelitian melalui proses penyebaran kuesioner, maka saran yang dapat diajukan peneliti terkait peningkatan kualitas layanan Museum Ullen Sentalu sebagai berikut:

1. Saran untuk Museum Ullen Sentalu diharapkan untuk meningkatkan kualitas pelayanannya dalam memandu wisatawan di Museum Ullen Sentalu. Dengan meningkatnya kualitas pelayanan dalam memandu wisatawan, maka tingkat ulasan yang bersifat positif akan meningkat.

2. Kepada pengelola Museum Ullen Sentalu supaya dapat memanfaatkan akun media sosial sebagai media promosi dengan memperhatikan konten-konten yang diunggah, seperti foto, video, artikel. Maka dengan konten-konten yang diunggah supaya mendapatkan ulasan-ulasan yang positif atau menarik dari para wisatawan. Dalam hal menambah kepuasan dan ketertarikan untuk berkunjung peneliti menyarankan pihak museum dalam memberikan feedback atau ajakan berkunjung kembali di setiap komentar atau ulasan yang ada di akun media sosial milik pribadi Museum Ullen Sentalu.
3. Kepada pihak Museum Ullen Sentalu peneliti menyarankan untuk memberitahukan lebih detail informasi dari segi harga atau biaya masuk, jenis tur dan apa saja yang akan didapatkan di dalam tur tersebut, perkiraan jangka waktu dalam pelaksanaan tur, dan menerapkan maksimum jumlah wisatawan dalam sekali tur. Hal ini peneliti sarankan karena wisatawan hanya melihat ulasan-ulasan di media sosial yang terkait keindahan, bangunan klasik dan pandangan secara umum museum sehingga wisatawan tidak mendapat atau mencari informasi keseluruhan ulasan yang ada, dimana ada sebagian dari wisatawan yang terkejut dengan biaya masuk, adanya dua jenis tur, adanya *guide*, dan lain-lain.
4. Sehubungan dengan penelitian ini mengambil materi yang sangat spesifik dan metode yang sederhana yaitu menggunakan ulasan wisatawan sebagai objek penelitian, diharapkan untuk penelitian

selanjutnya peneliti dapat menggunakan metode penelitian berganda dan media sosial yang berbeda untuk mengukur dampak media sosial yang lain, terutama untuk biaya masuk dimana bagi siswa dan mahasiswa harga tersebut sangat tinggi. Peneliti mengharapkan penelitian selanjutnya bisa mendapatkan hasil, apakah harga biaya masuk sepadan dengan apa yang di dapat di Museum Ullen Sentalu. Peneliti selanjutnya juga dapat menggunakan metode yang lebih relevan sehingga dapat ditarik generalisasinya.
