

## BAB V

### KESIMPULAN DAN SARAN

#### A. Kesimpulan

Pada akhir skripsi ini, penulis akan mengemukakan beberapa kesimpulan yang didasarkan pada temuan hasil penelitian dan uraian pada bab-bab sebelumnya. Dari hasil penelitian dapat disimpulkan beberapa hal sebagai berikut :

1. Variabel Atraksi setelah dilakukan pengujian *One Sample T Test* besarnya nilai T hitung adalah 4.156 sedangkan besar nilai T hitung 1.658 maka  $H_0$  ditolak. Hal ini diperkuat dengan nilai probabilitas  $0.0000007829 < 0.05$  maka disimpulkan bahwa Atraksi lebih dari atau sama dengan 75%.
2. Variabel Amenitas dan Aksesibilitas setelah dilakukan pengujian *One Sample T Test* besarnya nilai T hitung adalah 1.019 dan 0.411 maka  $H_0$  diterima. Hal ini diperkuat dengan nilai probabilitas nilainya lebih dari 0.05 maka disimpulkan bahwa Amenitas dan Aksesibilitas kurang dari 75%.
3. Atraksi memiliki nilai lebih besar dari 75% dan bisa dinyatakan bahwa Atraksi merupakan komponen ulasan wisatawan yang paling berpengaruh terhadap keputusan berkunjung wisatawan Generasi Z (Gen Z) di Bukit Klangon.

## B. Saran

Berdasarkan dari pengkajian hasil penelitian di lapangan, penulis bermaksud menyampaikan saran yang mudah-mudahan bermanfaat bagi pihak terkait, yaitu sebagai berikut :

1. Untuk pengelola perlu meningkatkan dalam hal amenities dan aksesibilitas seperti menyediakan layanan jaringan yang bagus agar wisatawan bisa mengakses internet dengan lancar dan bisa mengupdate kegiatan selama di Bukit Klangan, jadi bisa terangkat juga ke media sosial dengan cepat, menjaga kebersihan dan memastikan fasilitas selalu dalam kondisi yang baik agar wisatawan yang berkunjung bisa memberikan ulasan yang baik di Google Maps dan wisatawan yang akan datang juga bisa tertarik jika ulasan dari semua aspek itu baik, dan ketika datang ke Bukit Klangan pun wisatawan juga tidak kecewa dan tidak menimbulkan ulasan yang tidak baik juga di Google Maps yang akan mempengaruhi kunjungan wisatawan lain selanjutnya.
2. Untuk wisatawan, setiap berkunjung ke destinasi wisata, dihimbau untuk turut aktif dalam memberikan komentar dan saran yang membangun di fitur *Tourist Review* pada setiap *Google Maps* destinasi yang kita kunjungi, fungsinya untuk meningkatkan rating dan menjadi masukan untuk pengelola serta memberikan pertimbangan-pertimbangan untuk wisatawan yang akan berkunjung selanjutnya.

3. Untuk Dinas Pariwisata Sleman, dihimbau untuk mengoptimalkan operasional Bukit Klangon, tidak hanya dibuka pada hari Sabtu, Minggu dan hari libur saja, tapi bisa dibuka setiap hari dengan tambahan daya tarik seperti *corner* edukasi agar setiap wisatawan bisa datang berkunjung sambil belajar, dan bisa membuka kerja sama dengan sekolah-sekolah, agar bisa melakukan kegiatan edukasi wisata alam di Bukit Klangon.
4. Untuk peneliti selanjutnya, dihimbau untuk mempersiapkan diri untuk mencari data di lapangan, mengolah data dan mencari responden yang valid dan reliable serta memberikan referensi yang relevan.
